2013 Introduction

Message from the Mayor

Dear Montrealers,

The results for the 2013 fiscal year show an overall surplus of \$17.6 million (excluding the organizations controlled by the city). Clearly, this surplus is more modest than in previous years (\$109.1 million in 2012) and reflects a fragile financial balance of our metropolis.

Concrete measures were taken the day following the election to control city finances responsibly. They involved tighter management of expenditures included in the 2014 budget and taking over, in 2013, certain elements, such as an additional \$16million contribution to the Société de transport de Montréal (STM), as well as absorbing \$27.5 million in financial losses resulting from BIXI. Reporting BIXI's financial impact in 2013 was a sensible decision by the city. However, any gains resulting from BIXI's international component will be shown as income in the year of sale. Our efforts have already generated positive results. For example, in its 2013 results, the city did not use relief measures of approximately \$80 million for pension plan charges.

An administrative reform was undertaken in early 2014 to allow the city flexibility. It includes the creation of an organizational performance department, which will be responsible for examining city expenditures and will impose tighter management of the labour plan.

The city administration will continue its efforts and introduce strategies to support the administrative reform and strengthen Montréal's leadership in the field of economic development.

I would like to conclude by thanking all city employees for helping us to achieve our goals. Their ongoing efforts and resilience to change demonstrate professionalism, versatility and dedication to the municipal organization.

Denis Coderre Mayor of Montréal

Message from the Treasurer

Ladies, Gentlemen.

We are pleased to table the Ville de Montréal 2013 Annual Financial Report for the fiscal year ended December 31, 2013. The first section of this report contains a consolidated version of the city's financial data, namely the entity composed of the Ville de Montréal and the organizations under its responsibility. The second section contains an analysis of the city administration's financial information (excluding the organizations it controls).

At the beginning of the fiscal year and periodic reporting time, an analysis of the results indicated a possible tenuous financial balance for the city. To address the situation, a series of measures to control expenditures were implemented. These were successful and led to an overall surplus of \$17.6 million (excluding the organizations that make up the city's reporting entity) in 2013.

The report shows a surplus of \$36.7 million in revenue, including approximately \$22 million regarding items influenced by the Montréal economy, namely \$6.8 million in parking revenue, \$9.3 million from occupancy permits for public property and \$5.6 million in property transfer fees.

Rigorous management of expenditures was maintained throughout the year to balance the 2013 budget. This enabled us to find an additional \$125.0 million in the operating budget. This effort is the result of a reduced use of the amounts allocated to contingencies (\$46.3 million) and tight management of goods and services that helped us find approximately \$80 million in the business units. Noteworthy are savings of \$31.8 million in costs related to the debt following the readjustment of the borrowing program resulting from a reduction in completion of work included in the Three-Year Capital Works Program. However, these savings

were counteracted by excess expenditures, mainly including additional costs of \$32.8 million for snow removal and \$16.0 million for the contribution to the Société de transport de Montréal (STM).

A combination of additional revenues and amounts released from charges enabled the city to forego employing relief measures, representing approximately \$80 million. This enabled us to avoid deferring taxation to the future.

The two independent auditors' reports show a difference of opinion regarding the treatment of the new accounting standard PS 3410 *Government Transfers* that was implemented in 2013. This difference basically concerns the notion of authorization of transfers by the transferor, which is also subject to interpretation within the accounting profession. Clarification will be provided in 2014 by the Public Sector Accounting Board. The city will follow standardization developments closely.

I would like to conclude by thanking all city employees who have helped to achieve these results.

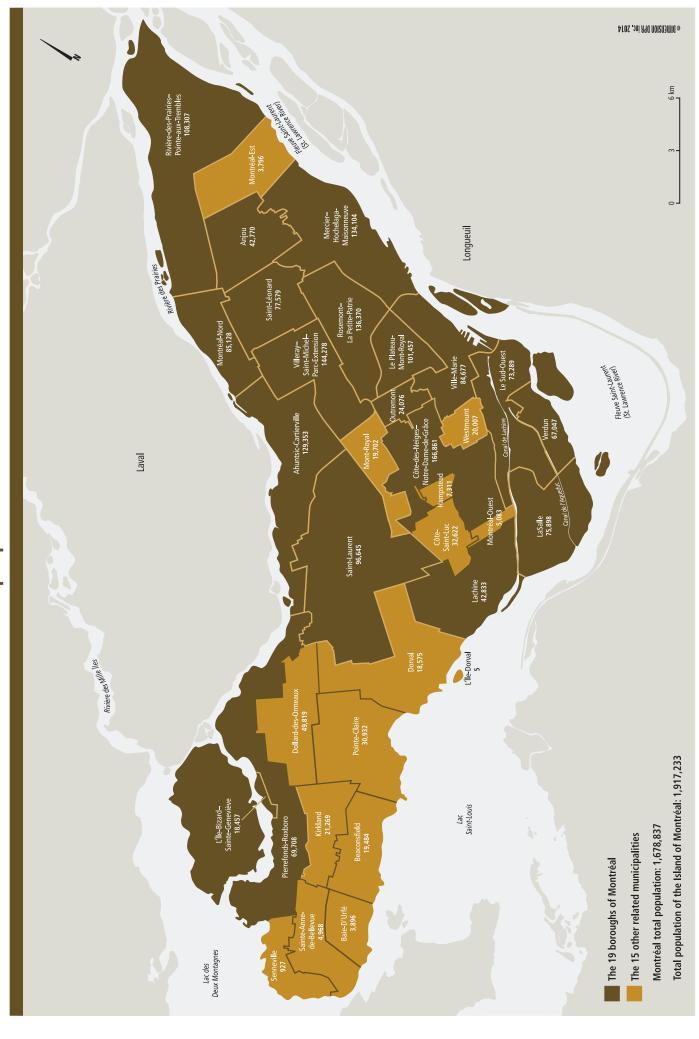

mul

Jacques Marleau
Deputy Treasurer

The Island of Montréal and its population

Pursuant to the Act respecting the consultation of citizens with respect to the territorial reorganization of certain municipalities and the Act respecting the exercise of certain municipal powers in certain urban agglomerations, and amendments, the city's powers of administration are divided among the urban agglomeration and local authorities. As the central city of this urban agglomeration, Montréal continues to provide services and to manage collective equipment for all island residents, within the city itself and within the 15 reconstituted municipalities.

These common services are provided by Ville de Montréal employees. Since 2009, the Island of Montréal's 16 related municipalities have been required to fund all shared services that fall under the Urban Agglomeration Council's authority with quota shares. This system of funding urban agglomeration responsibilities results from legislative changes introduced by *An Act to amend various legislative provisions concerning Montréal (Bill 22)* that was adopted in June 2008.

This Act also makes changes to items falling under the Urban Agglomeration Council's authority. Arterial road system activities, for example, are now under local authority, except for the definition of management and harmonization standards, general planning of the system and certain work that remains under the urban agglomeration's responsibility.

Furthermore, several items have been removed from the list of equipment, infrastructure and activities of collective interest set out in the Appendix to the *Order in Council concerning the urban agglomeration of Montréal* (No. 1229-2005 and amendments), such as several large parks, cultural facilities, celebrations and festivals.

Montréal Urban Agglomeration Council

The urban agglomeration is responsible for services provided to all island residents. These responsibilities are exercised by the Urban Agglomeration Council. This municipal political entity and decision-making body holds the authority to adopt any by-law, to authorize any expenditure and to levy any quota share throughout the Island of Montréal.

The Urban Agglomeration Council is designed to have a simple and democratic structure. Montréal's mayor selects representatives to accompany him to the Urban Agglomeration Council. Their briefs are set by the City Council, which defines the positions to be taken by its elected officials at the Urban Agglomeration Council. The same rule applies for the mayors of the reconstituted municipalities, who are bound by the guidelines of their respective city councils. A total of 31 elected officials sit on the Urban Agglomeration Council.

They are:

- The mayor of Montréal, who is its chair.
- 15 elected officials from Montréal's City Council, who are appointed by the mayor.
- 14 mayors of the reconstituted municipalities (L'Île-Dorval and Dorval share one representative), one of whom is appointed as vice-chair.
- An additional representative from Dollard-Des Ormeaux (because of the size of its population), who is appointed by the mayor of this municipality.

The representation of each of the 16 related municipalities within this council is proportional to its demographic weight. Montréal has a weight of 87% and the 15 reconstituted municipalities have 13%.

City Council and Borough Councils

Furthermore, in accordance with the various areas of activity defined in the *Charter of Ville de Montréal*, the city's local powers are distributed among the City Council and the borough councils.

The Montréal City Council assumes its responsibility toward local powers within the city, which now has 19 boroughs. The borough councils are responsible for delivering local services.

The City Council consists of the mayor of Montréal, also ex-officio mayor of the Ville-Marie borough, plus 64 city councillors, 18 of whom are borough mayors. A borough council has at least five members. These members include the borough mayor, one or more city councillors and any borough councillors. There are 19 boroughs, with 46 councillors, who also sit on the City Council, and 38 borough councillors.

The cost of local service provided on the Montréal territory is covered using revenue from local property taxes, which are paid by all Montréal taxpayers. In some cases, taxpayers in a given borough may, according to decisions by their borough council, be required to pay a borough tax for local services.

Summary of Powers Falling under the Urban Agglomeration Council or the City and Borough Councils

Urban Agglomeration Powers

- Property assessment
- Police, fire and public safety
- First responder services, except in Côte-Saint-Luc
- 9-1-1 emergency centre
- Implementation of fire coverage and public safety plans
- Municipal court
- Social housing
- Assistance to the homeless
- Prevention and fight against substance abuse and prostitution
- Waste disposal, recycling and management of hazardous material
- Development and adoption of a solid waste management plan
- Municipal waterways
- Water supply and purification, except local mains
- Public transit
- Definition of minimum standards for the management and general planning of the arterial road system and work on specified roadways
- Economic and tourist promotion outside the limits of a related municipality
- Tourist information services
- Industrial parks
- Conseil des arts de Montréal (arts council)
- Equipment, infrastructure and activities of collective interest designated in the Order in Council concerning the urban agglomeration of Montréal (No.1229-2005 and amendments)
- Contribution to financing the debt of the Nature Museums
- Any other responsibility once within the jurisdiction of the former urban community, now under the authority of the city

Local Powers

- Urban planning
- Building, public nuisance and public health regulations
- Housing
- Fire protection and public safety
- Solid waste collection and transportation
- Local and arterial road management
- Local water mains and sewer lines
- Local sports and recreational facilities
- Local libraries
- Local parks
- Local economic, community, cultural and social development
- Heritage
- Commission des services électriques (electrical services commission)
- Sociétés de développement commercial (merchants' associations)
- Industrial parks listed in by-law RCG 06 020
- Organization of elections

2013 Consolidated Financial Information

Management responsibility for financial reporting

The consolidated financial statements in this report are prepared in accordance with Canadian public sector accounting standards, as described in Note 2 to the consolidated financial statements.

The consolidated financial statements and all other information in this annual financial report are the responsibility of management. Management has also ensured consistency between the consolidated financial statements and all other information disclosed in the annual financial report.

To assess certain facts and operations, management has made estimates based on its best judgment of the situation and by taking into account materiality.

Management is responsible for maintaining appropriate internal control and accounting systems that provide reasonable assurance that the city's policies are adopted, that its operations are carried out in accordance with the appropriate laws and authorizations, that its assets are adequately safeguarded, and that the consolidated financial statements are based on reliable accounting records.

The city's powers and responsibilities are exercised either by the Urban Agglomeration Council, the City Council, or by the borough councils.

The Audit Committee is made up of seven members, two of which are members of the council representing the reconstituted municipalities and two are external members. Its responsibilities include overseeing financial reporting and presentation procedures, which includes reviewing the consolidated financial statement and other information contained in this annual financial report.

The Auditor General of Ville de Montréal and the independent auditor, Deloitte S.E.N.C.R.L./s.r.l., have audited the consolidated financial statements and presented the following reports.

Jacques Marleau

Deputy Treasurer of Ville de Montréal

Alain Marcoux Acting City Manager

March 24, 2014

INDEPENDENT AUDITOR'S REPORT

To the Mayor, The Chairman and the Members of the Executive Committee, The Members of the Council of Ville de Montréal, The Members of the Montréal Agglomeration Council

I have audited the accompanying consolidated financial statements of Ville de Montréal, which comprise the consolidated statement of financial position as at December 31, 2013, and the consolidated statements of operations, change in net debt and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these consolidated financial statements based on my audit. I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Ville de Montréal as at December 31, 2013 and the results of its operations, changes in its net debt and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Observations

Without modifying my opinion, I draw attention to Note 14 to the consolidated financial statements, which states that the City includes certain financial information prepared for tax purposes in its consolidated financial statements. Management has decided to present this information, which is not required under Canadian public sector accounting standards, as it deems it necessary for a more in-depth and relevant analysis of the activities carried out.

Auditor General of the Ville de Montréal,

Jacques Bergeron, CPA auditor, CA

Montréal, March 24, 2014

Deloitte LLP

Independent auditor's report

To the Mayor, the Chairman and the Members of the Executive Committee, the Members of the Council of Ville de Montréal, and the Members of the Montréal Agglomeration Council

We have audited the accompanying consolidated financial statements of Ville de Montréal, which comprise the consolidated statement of financial position as at December 31, 2013, and the consolidated statements of operations, change in net debt and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Basis for Qualified Opinion

As at December 31, 2013, Ville de Montréal recognized, in its consolidated statement of financial position, grants receivable from the Government of Québec regarding government transfers related to assistance programs involving the construction of capital assets and other expenses financed or to be financed by loans and for which the work has been completed. This situation is a departure from the new accounting standard on government transfers set out in Canadian public sector accounting standards, which provides for the recognition of grants when they have been authorized by the government upon the exercise of its enabling authority and when the recipients have met the eligibility criteria. The impacts of the current accounting treatment on the consolidated financial statements as at December 31, 2013 and 2012 are as follows:

Overstated (understated)

	In thousands of d	,
	<u>2013</u>	<u>2012</u>
Consolidated statement of financial position		
Accounts receivable - Government of Québec and its	1,828,154	1,823,375
enterprises		
Net debt and accumulated surplus	1,828,154	1,823,375
Consolidated statement of operations		
Revenues - Transfers	4,779	(14,637)
Surplus for the year	4,779	(14,637)
Prior period adjustment		1,838,012
Accumulated surplus at end of year	1,828,154	1,823,375

Management has not detailed the accumulated surplus amount to the extent provided in the consolidated financial statements.

In addition, Ville de Montréal did not comply with the provisions of section 1.1 of the *Act respecting subsidies for the payment in capital and interest of loans of public or municipal bodies and certain other transfers* (CQLR, chapter S-37.01), which took effect June 14, 2013 and states that only the part of the subsidy that is payable in Ville de Montréal's fiscal year and authorized by Parliament for the government's fiscal year must be recognized.

Qualified Opinion

In our opinion, except for the effects of the matter described in the "Basis for Qualified Opinion" paragraph, the consolidated financial statements present fairly, in all material respects, the financial position of Ville de Montréal as at December 31, 2013, and the results of its operations, change in its net debt and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Observations

Without modifying our opinion, we draw attention to Note 14 to the consolidated financial statements, which states that Ville de Montréal includes certain financial information prepared for tax purposes in its consolidated financial statements. Management has decided to present this information, which is not required under Canadian public sector accounting standards, as it deems it necessary for a more in-depth and relevant analysis of the activities carried out.

December 31, 2013

1- GOVERNING STATUTE

Ville de Montréal (the City) is a municipal corporation incorporated on January 1, 2002 under the Charter of the City of Montréal (R.S.Q., chapter C-11-4).

On January 1, 2006, following the results of a referendum held in 2004 under *An Act regarding public consultation on the territorial reorganization of certain municipalities* (S.Q. 2003, chapter 14), the former municipalities of Baie-d'Urfé, Beaconsfield, Côte-Saint-Luc, Dollard-Des-Ormeaux, Dorval, Hampstead, Kirkland, Île-Dorval, Montréal-Est, Montréal-Ouest, Ville Mont-Royal, Pointe-Claire, Sainte-Anne-de-Bellevue, Village de Senneville and Westmount were reconstituted. As a result, Ville de Montréal now consists of 19 remaining boroughs that comprise 87% of the total population of the island of Montréal. In accordance with the provisions of this Act, all municipalities located on the island of Montréal, however, remain related to one another and form an agglomeration consistent with the territory of Ville de Montréal as it existed on December 31, 2005.

An Act respecting the exercise of certain municipal powers in certain urban agglomerations (R.S.Q., chapter E-20.001), completed by the Montréal Agglomeration Order (Order-in-Council No. 1229-2005), and its amendments lists and defines the powers of the urban agglomeration. Under this Act, Ville de Montréal is the central municipality in charge of exercising, in addition to its local powers, the powers of the agglomeration.

The agglomeration is headed by the City's Urban Agglomeration Council, a political and decision-making body vested with decision-making powers related to urban agglomeration responsibilities. The Urban Agglomeration Council is a central municipal legislative body, separate from city council under Section 14 of the Charter of the City of Montréal. It is made up of representatives of each related municipality, with the number of representatives of each municipality being determined proportionately to the relative size of their populations.

2- SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with Canadian public sector accounting standards They contain certain financial information for tax purposes presented in Note 14.

The term "City," as used in the segment disclosures, accompanying notes and tables, refers to the entity made up of Ville de Montréal and the organizations under its control. The term "municipal administration" refers to Ville de Montréal excluding the organizations under its control.

The significant accounting policies are as follows:

a) Principles of consolidation

The consolidated financial statements include the accounts of the City and of the organizations under its control. These organizations include the Société de transport de Montréal (the STM), the Société d'habitation et de développement de Montréal, the Montréal Technoparc, the Société du parc Jean-Drapeau, the Conseil des arts de Montréal, the Conseil interculturel de Montréal, the Office de consultation publique de Montréal, the Société de gestion du port de plaisance de Lachine, Anjou 80, the Société vélo en libre-service and the Société en commandite Stationnement de Montréal. Transactions concluded between these organizations and reciprocal balances are eliminated.

b) Accounting method

Transactions are recorded in the City's books using the accrual basis of accounting. Under this method, assets, liabilities, revenues and expenditures are recognized in the year in which the events and transactions occur.

c) Use of estimates

Preparation of the consolidated financial statements in accordance with Canadian public sector accounting standards requires management to make assumptions and estimates that affect the reported amounts of revenues, expenditures, assets, liabilities, and commitments and contingencies. Actual results could differ from these estimates.

The main estimates made relate to the following items: the allowance for doubtful accounts, the net realizable values of assets held for sale, the estimated useful lives of capital assets, provisions for salaries and benefits, liabilities for solid waste landfill closure and post-closure costs, contested valuations and legal claims and actuarial assumptions for establishing employee future benefits liability and expenses.

Notes and Tables to the Consolidated Financial Statements

December 31, 2013

2- SIGNIFICANT ACCOUNTING POLICIES (continued)

d) Investments

Temporary investments are recorded at the lower of cost and fair value.

Other investments are recorded at cost and written down when there is a permanent decline in value. Discounts or premiums on investments are amortized on a straight-line basis until maturity. Amounts included in the sinking fund are restricted to the repayment of long-term loans that do not require annual repayment and, for the municipal administration, to the reduction of the long-term financing related to the acquisition of capital assets and to certain operating expenditures.

e) Assets held for sale

Assets held for sale are recorded at the lower of cost and net realizable value. The portion of these assets held for selling purposes for the subsequent year is presented in financial assets.

f) Loans

Loans are presented at cost. Loans with significant concessionary terms are presented at face value discounted by the amount of the grant portion. The discount is amortized over the term of the loan using the effective interest method.

g) Provision for contested valuations

The provision for contested valuations is an estimate of refunds (both principal and interest) that may result from court decisions on contested real estate valuations or rental values and on contested classifications under the *Act respecting Municipal Taxation*.

h) Deferred revenues

Premiums on the issuance of securities are amortized on a straight-line basis over the term of the related loans. Unrealized net foreign exchange gains are amortized using the method described in Note 2 s).

i) Other non-financial assets

The City records capital assets and certain assets as non-financial assets since they can be used to provide services in subsequent years. These assets do not usually provide resources assigned to the settlement of its liabilities unless they are sold.

j) Capital assets

Capital assets are recorded at cost and amortized on a straight-line basis over the following estimated useful lives:

Infrastructures	10 to 40 years
Metro system	25 to 100 years
Buildings	20 to 40 years
Leasehold improvements	lease term
Vehicles	5 to 25 years
Office furniture and equipment	5 to 10 years
Machinery, tools and equipment	5 to 25 years
Other	20 to 25 years

Capital assets in the process of completion are only amortized when they can be used in the production of goods or in the provision of services.

Land used as road foundations, otherwise acquired by a purchase contract, is recorded at a nominal value of \$1. Other land is recorded at cost. When the cost cannot be traced, it is estimated.

December 31, 2013

2- SIGNIFICANT ACCOUNTING POLICIES (continued)

k) Inventories

Inventories are recorded at cost, which is determined using the average cost method. Obsolete inventory is written off.

I) Other non-financial assets

Securities issuance costs are amortized on a straight-line basis over the terms of the related borrowings.

m) Tax revenues and compensations in lieu of taxes

Except for revenues from the tax on registered vehicles, tax revenues and compensations in lieu of taxes are recognized in the year in which they are billed. Revenues from the tax on registered vehicles are recognized over a 12-month period from the date they are received.

n) Quota shares

The expenditures incurred by the City in exercising urban agglomeration responsibilities are invoiced to the municipalities related to the agglomeration. Revenues from this invoicing are recorded as quota shares in the Statement of Operations.

o) Transfer revenues

Transfer revenues are recorded in the Statement of Operations when the related operating and capital expenditures are recorded, authorized by the transferor and the eligibility criteria have been met, unless the transfer stipulations give rise to an obligation that meets the definition of a liability.

p) Employee future benefits asset and expenses

- Defined benefit liability/asset plans

Plan liability or asset reflect the year-end difference existing between the value of the accrued benefit obligations and the value of plan assets, net of unamortized actuarial gains and losses and the valuation allowance. The actuarial valuation of these assets or liabilities is determined using the projected benefit method prorated on years of service with salary projection. It is also based on actuarial assumptions that include management's best estimates on, among other things, discount rates, the expected rate of return on plan assets, and the rate of compensation increase and healthcare costs.

Plan assets are valued using a market-related value, determined over a period not exceeding five years.

Past service costs related to plan amendments are recognized in the year during which the amendments are made.

Actuarial gains and losses resulting from the difference between the actual and the expected rate of return on plan assets or resulting from changes in actuarial assumptions are deferred and amortized over the average remaining service life of active employees. As at December 31, 2013, this weighted average remaining service life is 13 years.

- Defined contribution plans and pension plan for elected officials

The pension expense for these plans is recognized when contributions are due.

q) Liabilities for solid waste landfill closure and post-closure costs

The City records a liability for closure and post-closure costs of solid waste landfills that it has operated. The liability provision for these costs is an estimate of the costs required to provide final cover for closed landfills and to monitor and maintain the biogas and leachate collection and treatment systems for an estimated period of 20 years. These estimated costs are recognized based on the landfill capacity already used.

The assumptions used to calculate these costs are periodically reviewed to account for advancements made in solid waste landfill management practices.

December 31, 2013

2- SIGNIFICANT ACCOUNTING POLICIES (continued)

r) Environmental obligations

The City records an environmental liability when it is likely that corrective measures will be applied and the costs of these measures can be reasonably estimated.

s) Foreign currency translation

Revenues and expenditures related to foreign currency transactions are translated into Canadian dollars using the exchange rates in effect on the transaction date.

Monetary assets and liabilities denominated in foreign currencies are translated using the exchange rates in effect on the reporting date, and foreign exchange gains or losses are immediately charged to the Statement of Operations if they are short-term cash items.

Loan repayments and payments to the Sinking Fund, with respect to loans denominated in foreign currencies that are not subject to a hedge against currency exposure, are translated using the exchange rates in effect on the transaction dates. For these loans, gains and losses resulting from the difference between the original conversion rate and conversion rate used on the repayment or payment date are recorded in the Statement of Operations.

The unamortized foreign exchange gain or loss relating to a long-term debt denominated in foreign currency, but not subject to a hedge against currency exposure, is recognized in the Statement of Financial Position as a deferred item and charged to the Statement of Operations using the straight-line method over the remaining term of the loans.

t) Derivative financial instruments

The City uses derivative financial instruments to reduce its currency and interest rate risk exposure on long-term debt and applies hedge accounting in its eligible hedging relationships in order to benefit from hedge accounting. When implemented, the foreign exchange hedging relationships must be fully documented as required under standard PS 2600, Foreign Currency Translation, and the City must secure efficient relationships for managing the attendant risks. Then the current hedging relationships are evaluated on an annual basis to ensure that they continue to be efficient, and it is expected that they will remain efficient. The efficiency of a hedging relationship is generally evaluated by analyzing whether the main terms of the swap match those of the debt covered. The City does not use financial instruments for trading or speculative purposes.

The City uses cross-currency swaps to manage the risk associated with loans denominated in foreign currencies. The value of currency swaps is determined by applying the change between the foreign exchange rates stipulated in the swap contracts and exchange rates in effect on the reporting date to the notional amounts of the swaps. Those that constitute financial assets are deducted from long-term debt, and those that constitute financial liabilities are added to long-term debt. Gains and losses on these derivatives are recognized in the same period as the exchange gains and losses related to the corresponding debt and are charged against the latter.

Furthermore, the City uses interest rate swaps to manage interest rate risk related to its debt. These contracts result in interest exchanges that are recorded as an adjustment to financing expenses for the year. The amounts payable to counterparties or receivable from counterparties are recorded as an adjustment to the accrued interest on the corresponding debt; otherwise, the value of the interest rate swap contracts is not recorded in the Statement of Financial Position.

u) Urban agglomeration responsibilities

Under an *Act respecting the exercise of certain municipal powers in certain urban agglomerations* (R.S.Q., chapter E-20.001), the City, in addition to its local powers, exercises agglomeration powers over the entire territory of related municipalities. The main agglomeration powers cover the following areas: municipal assessments; public transit; certain functions related to the thoroughfares forming the arterial road system; water supply and water purification; disposal and reclamation of residual materials; municipal watercourses; police, emergency preparedness, fire protection and first responder services (except for the territory of the municipality of Côte-Saint-Luc); the municipal court; social housing and assistance to the homeless; and certain components of economic development. Tables 1 and 2 provide a breakdown of the operating activities and capital asset surplus for tax purposes according to both local and agglomeration responsibilities.

December 31, 2013

2- SIGNIFICANT ACCOUNTING POLICIES (continued)

v) Sectorization and presentation of operations

The City's financial position, operations, operating and capital asset surplus (deficit) for the year for tax purposes, and by-item expenditures are broken down between the following sectors: municipal administration and controlled organizations.

Expenditures are broken down as follows:

The "General administration" item refers to all municipal administration and management activity. Expenditures relate primarily to council activities, applications of the law, and financial, administrative and staff management.

The "Public security" item refers to all activities involving the protection of people and property. It includes all expenditures related to control, prevention and emergency measures regarding emergency preparedness.

The "Transportation" item refers to all activities related to planning, organizing and maintaining road systems and to the transportation of people and goods.

The "Environmental hygiene" item refers to all expenditures related to water, sewers, waste removal, and environmental protection.

The "Health and welfare" item refers to all community health and welfare services.

The "Urban planning and development" item refers to the development and maintenance of the urban development plan or city plan as well as all expenditures related to developing the City's economic development programs.

The "Recreation and culture" item refers to all the planning, organizing, and managing of recreational and cultural programs.

The "Financing expenses" item refers to the interest and other charges involved in financing

w) Budget information

The Consolidated Statement of Operations and the Consolidated Statement of Change in Net Debt include a comparison with consolidated budget data, adjusted in accordance with Canadian public sector accounting standards. The consolidated budget is prepared by combining the unconsolidated budget adopted by the municipal administration with the budgets adopted by the main controlled organizations, after eliminating reciprocal transactions.

A comparison with the unconsolidated budget, adopted in December 2012 by the city council and the Urban Agglomeration Council, is also presented in the schedules and tables prepared for tax purposes.

3- CHANGE IN ACCOUNTING POLICY

On January 1, 2013, the City adopted the recommendations of new accounting standard PS 3410, Government Transfers. This new standard requires that government transfers be recognized as revenue in the year in which the transfers are authorized by the transferor and the eligibility criteria have been met, unless the transfer stipulations give rise to an obligation that meets the definition of a liability. The City has determined that the retroactive application of the standard has no impact on the presentation of its consolidated financial statements.

However, certain aspects of the standard, in particular issues related to the notion of authorization of transfers, are currently the subject of differing accounting interpretations. Given these differences, the Public Sector Accounting Bord agreed, at its meeting of December 12 and 13, 2013, to create a subcommittee tasked with reviewing those issues and reporting back its related recommendations. The City will closely monitor the progress of the standardization work.

4- CASH AND INVESTMENTS (in thousands of dollars)

_		2013		2012
_	Sinking			
_	Fund	Other	Total	Total
Cash and temporary investments				
Cash		95,687	95,687	107,539
Temporary investments		216,661	216,661	185,026
		312,348	312,348	292,565
Investments				
Term deposits and other securities	27,817	606,461	634,278	763,793
Bonds and debentures	1,867,687	251,764	2,119,451	1,893,992
_	1,895,504	858,225	2,753,729	2,657,785

Temporary investments with a term of 90 days or less effective on the acquisition date, essentially include notes, bankers' acceptances and deposit certificates. They bear interest at rates varying between 1.06% and 1.80% (0.85% and 1.80% in 2012). As at December 31, 2013, the fair value of investments was \$2,811.8 million (\$2,775.4 million in 2012).

As at December 31, 2012, the Sinking Fund and other investments totalled \$1,862.3 million and \$795.5 million, respectively.

Bonds and debentures held by the City essentially comprise securities issued by governments and their bodies and by municipalities, school boards, CEGEPs, CLSCs and hospitals. In particular, they include City bonds and debentures totalling \$400.2 million (\$415.6 million in 2012).

Substantially all of the investments were denominated in Canadian dollars as at December 31, 2013 and December 31, 2012. The maturities of Sinking Fund investments held by the City are as follows:

	Term deposits	Bonds and		Weighted nominal
	and other securities	debentures	Total	interest rate
December 31, 2013				
2014	633,278	189,746	823,024	2.21%

	763,793	1,893,992	2,657,785	

December 31, 2013

5- ACCOUNTS RECEIVABLE

(in thousands of dollars)

	2013	2012
Taxes	90,651	76,759
Government of Canada and its enterprises	83,000	58,112
Government of Québec and its enterprises	2,277,775	2,277,579
Municipal organizations	3,102	1,797
Services rendered and other	405,547	438,483
	2,860,075	2,852,730

An allow ance for doubtful accounts of \$139.0 million (\$124.5 million in 2012) has been deducted from accounts receivable.

An organization has entered into a factoring agreement with a financial institution. The agreement allows the organization to have access to a maximum of \$40 million, supported by the factoring of short-term accounts receivable. Accounts receivable in the amount of \$13.0 million (\$3.6 million in 2012) were factored to the financial institution, at no time exceeding the authorized amount. The factoring cost of these accounts receivable is \$0.1 million (\$0.1 million in 2012) and is included in transportation expenses in the statement of operations.

	2013	2012
Receivables amount to be used to repay long-term debt		
Government of Québec and its enterprises	1,995,170	1,959,903

The fair value of the receivables to be used to repay long-term debt is \$2,122.9 million (\$2,166.4 million in 2012). Accounts receivable collected for the repayment of long-term debt, for which repayment terms were determined as at December 31, 2013, are as follows:

		Weighted nominal	
	Receipts	interest rate	Refinancing
December 31, 2013			
2014	224,331	4.65%	73,012
2015	204,240	4.63%	64,174
2016	192,120	4.68%	13,715
2017	186,261	4.73%	27,477
2018	158,484	4.74%	41,324
1 to 5 years	965,436	4.68%	219,702
6 to 10 years	480,726	4.52%	33,903
11 to 15 years	130,656	4.02%	6,345
16 to 20 years	71,151	3.36%	1,647
=	1,647,969	4.52%	261,597
December 31, 2012			
2013	105,504	5.27%	55,611
2014	186,756	5.10%	73,012
2015	72,819	5.42%	64,174
2016	94,438	5.33%	13,715
2017	214,581	5.10%	27,443
1 to 5 years	674,098	5.19%	233,955
6 to 10 years	778,462	4.66%	71,465
11 to 15 years	63,156	5.82%	6,345
16 to 20 years	34,337	3.98%	
<u> </u>	1,550,053	4.93%	311,765

December 31, 2013

6- LOANS

(in thousands of dollars)

	2013	2012
Loans	37,791	23,562
Balances of sales prices	6,108	2,444
	43,899	26,006

The loans, secured by mortgages in an amount of \$24.1 million and maturing from 2014 to 2030, bear interest at rates varying between 0% and 9% (amount of \$10.9 million maturing from 2013 to 2030 at rates varying between 0% and 9% in 2012). An amount of \$4.7 million has been deducted from the value of the loans to present them at discounted face value (\$3.8 million in 2012).

As at December 31, 2013, balances of sales prices, which mature from 2014 to 2033, bear interest at rates varying between 4.4% and 9% (maturing from 2013 to 2017 at interest rates varying between 3.5% and 9% in 2012).

As at December 31, 2013, the fair value of loans and the balances of sales prices was \$43.1 million (\$24.4 million in 2012).

7- EMPLOYEE FUTURE BENEFITS (LIABILITY) ASSET

(in thousands of dollars)

	2013	2012
Defined benefit pension plans	173,939	290,469
Other plans	(248,658)	(241,944)
(Liability) Asset employee future benefits	(74,719)	48,525

Expenses for the defined benefit plans totalled \$741.8 million (\$707.6 million in 2012). Expenses for the defined contribution plans and the pension plans of elected officials totalled \$0.5 million (\$0.4 million in 2012) and \$2.2 million (\$2.1 million in 2012), respectively.

Defined benefit plans

a) Description of plans

The City offers various defined benefit pension plans to most of its employees. Under these plans, benefits paid to employees are based on the number of years of service and the average salary for the highest paid years. The City's contributions are determined according to various actuarial methods.

Other retirement benefits, including life insurance and insurance coverage for medical and dental costs, are also provided to certain employees. Certain post-employment benefits are also provided and include, in particular, income replacement benefits, supplemental unemployment benefits, maintenance of coverage during periods of temporary absence and certain termination allowances. These plans are not funded.

The most recent actuarial valuations were performed from December 31, 2009 to December 31, 2012.

Years when rate is expected to stabilize		2024 and 2032		2025 and 2032
Initial growth rate for dental care costs		4.00%		4.00% to 5.00%

Mortality Tables

In 2013, the Canadian Institute of Actuaries (CIA) published a study on new mortality tables. The study mainly found that Canadian retirees were living longer than projected using the previous tables based on U.S pensioner mortality experience, The City is using the new tables to better estimate the value of its liability as at December 31, 2013 except for the plans of the STM. Those plans are subject to specific mortality experience studies on the underlying pension plan population and, therefore, use a specific experience-based assumption rather than generic tables

Defined contribution plans and plans of elected officials

a) Description of plans

Some employees are members of defined contribution plans, under which the City's contribution represents a percentage of pay. Elected officials are members of defined benefit pension plans administered by the Commission administrative des régimes de retraite et d'assurances du Québec. The City's contributions are determined by the government.

b) Employer contributions

	2013	2012
Defined contribution plans	497	438
Pension plans of elected officials	2,196	2,109

8- TEMPORARY LOANS

The City has levers for its short-term liquidity needs that totalled \$1,788.8 million as at December 31, 2013 (\$1,761.7 million in 2012).

Of this amount, \$1,475.8 million (\$500.0 million under the limit set by the STM and \$975.8 million under the *Charter of the City of Montréal*, which authorizes up to 20% of the budgetary appropriations) may be borrowed, in whole or in part, through notes, bankers' acceptances or securities that may be negotiated with chartered banks or on the open market for short-term borrowings. As at December 31, 2013, the nominal value of commercial paper issuances was \$226.6 million (\$160.9 million in 2012) and the average rate on these temporary loans was 1.16% (1.13% in 2012).

The City also has demand lines of credit from different banks totalling \$313.0 million. As at December 31, 2013, the amount of the credit used was \$21.8 million (\$13.1 million in 2012) and bears interest at an average rate of 2.59% (2.79% in 2012).

⁽¹⁾ Includes the long-term debt related to repaying the net pension plan obligation totalling \$1,294.9 million (\$1,302.1 million in 2012).

⁽²⁾ Mortgages in the amount of \$38.1 million (\$43.1 million in 2012) are guaranteed by properties with a carrying value of \$47.5 million (\$47.7 million in 2012).

December 31, 2013

11- LONG-TERM DEBT (continued)

(in thousands of dollars)

The repayment of the long-term debt is allocated as follows:

	2013	2012
Chargeable to taxpayers		
Of the central municipality	3,123,570	2,927,392
Of the agglomeration	1,890,756	1,920,919
Accumulated amounts in the Sinking Fund	1,895,504	1,862,335
Receivables amount to be used to repay long-term debt		
Government of Québec and its enterprises	1,995,170	1,959,903
Amount recoverable through user fees	343,343	338,331
	9,248,343	9,008,880

The City uses currency and interest-rate swap agreements for loans totalling \$259.9 million (\$334.9 million in 2012). The financial liabilities associated with these swaps are included in the long-term debt amount.

Considering the existence of these swaps, substantially all of the loans contracted by the City bear interest at a fixed rate. As at December 31, 2013, unhedged foreign exchange loans amounted to \$0.3 million (\$51 million in 2012) and the foreign exchange gain on these loans amounted to \$0.6 million (\$23.1 million in 2012).

Estimated payments on long-term debt are as follows:

			2013				2012

December 31, 2013

14- ACCUMULATED SURPLUS

(in thousands of dollars)

	2013	2012
Unrestricted operating surplus	11,783	50,372
Restricted operating surplus	271,154	269,837
Financial reserves and reserved funds	309,189	280,232
Deficit of capital asset activities	(307,440)	(337,084)
Recognized expenditures to be taxed or funded	(831,410)	(741,362)
Net investment in capital assets	6,693,822	6,538,569
	6,147,098	6,060,564

In accordance with the model developed by the Ministère des Affaires municipales, des Régions et de l'Occupation du territoire of the Government of Québec, the City presents certain financial information prepared for tax purposes in its annual financial report. Besides a breakdown of the accumulated surplus in various items defined in the following paragraphs, the financial information is presented in Schedules 3 and 4; in Tables 1, 2 and 3 of the Notes and Tables to the Consolidated Financial Statements; and in the section of the report that deals specifically with the municipal administration:

Restricted operating surplus

The restricted operating surplus is the portion of the accumulated surplus whose use is reserved under the *Act to reform the municipal territorial organization of the metropolitan regions of Montréal, Québec and Outaouais* (2000, chapter 56), under the *Charter of the City of Montréal*, or under resolutions adopted by the city council, the Urban Agglomeration Council and the borough councils. It also includes the excess of operating activities in organizations under its control.

Financial reserves and reserved funds

Certain amounts collected by the City must be recorded in special accounts of accumulated surplus and used for specific purposes. These purposes include, in particular, the development and maintenance of parks, playing fields and parking areas; the provision of water and road network services; and the acquisition of capital assets.

Deficit on capital asset activities

The deficit on capital asset activities is equal to the surplus of costs of capital assets on the financing realized.

Recognized expenditures to be taxed or funded

Recognized expenditures to be taxed or funded is equal to the net balance of the expenditures recognized in the Statement of Operations that will be subject to future revenues. Except for the balance related to the initial obligation as at January 1, 2007 for other retirement benefits and other post-employment employee future benefits, this amount will be transferred by allocating it to the unrestricted operating surplus over estimated periods through to 2045. The recognized expenditures to be taxed or funded results from the following:

- the application of transitional measures related to accounting policy changes made in 2000 (amortization over an estimated period through to 2020);
- application of relief measures related to employee future benefits (amortization over an estimated period through to 2025);
- the long-term financing of certain expenditures, essentially related to the 2003 and 2005 refinancing of notarized deeds relating to certain pension plans (amortization over an estimated period through to 2045).

Net investment in capital assets

The net investment in capital assets is equal to the net carrying value of capital assets, minus the debt portion related to these assets and the related unrealized net foreign exchange gains, plus Sinking Fund investments that have accrued to repay the debt and the receivables amount to be collected from third parties for said repayment.

December 31, 2013

15- TRANSFER REVENUES

(in thousands of dollars)

	2013	2012

Other	6,499	52,138
	342,435	330,996
	851,506	865,341

16- INTEREST INCOME

(in thousands of dollars)

	2013	2012
Sinking Fund	70,109	62,786
Cash and other interest	43,725	51,135
Tax arrears	12,718	17,312
	126,552	131,233

17- FINANCIAL INSTRUMENTS

Use of derivative instruments

The City uses derivative financial instruments to reduce its exposure to changes in cash flows associated with changes in foreign exchange rates and interest rates on its long-term debt. It does not use derivative financial instruments for trading or speculative purposes.

Exchange and interest positions

As at December 31, 2013, considering the use of currency and interest-rate swaps, substantially all of the City's loans are denominated in Canadian dollars and bear interest at a fixed rate.

Credit risk

In using derivative financial instruments, the City is exposed to credit losses arising from third-party defaults on payment. The City believes these parties will be able to meet their obligations since it deals only with recognized institutions whose credit ratings are higher than its own.

December 31, 2013

17- FINANCIAL INSTRUMENTS (continued)

Fair value

The fair values of cash and temporary investments, accounts receivable other than those used to repay long-term debt, temporary loans, and accounts payable, provisions and accrued liabilities approximate their carrying values due to the short maturities of these financial instruments.

The following table shows the fair values and carrying values of other financial instruments:

(in thousands of dollars)	201	3	2012		
	Fair value	Carrying value	Fair value	Carrying value	
Investments	2,811,841	2,753,729	2,775,424	2,657,785	
Receivables amount to be used to repay long-term debt	2,122,892	1 005 170	2,166,391	1 050 003	
	, ,	1,995,170	* *	1,959,903	
Loans	43,100	43,899	24,431	26,006	
Long-term debt	9,901,450	9,248,343	10,144,701	9,008,880	

The fair value of investments is the amount at which they could be exchanged on the market between parties at arm's length. The fair value of the receivables amount to be used to repay long-term debt, the loans and the long-term debt is essentially based on a discounted cash flow calculation that uses rates of return or the year-end market price of similar instruments with the same maturity. The fair value of swaps is the amount the City would receive or pay if these contracts closed at that date. As at December 31, 2013, the fair value of financial liabilities associated with swaps stood at \$31.2 million (\$61.3 million in 2012). It is included in the long-term debt amounts.

18- COMMITMENTS AND CONTINGENCIES

a) Contractual obligations

The City has contractual obligations relating primarily to property leases, equipment and machinery rentals, and snow-removal and garbage collection services. Under these obligations, the City has committed to paying a total amount of \$1,423.9 million. The estimated amounts payable over the coming years are as follows:

2014	2015	2016	2017	2018	2019-2069	Total
\$329.5M	\$262.0M	\$186.0M	\$142.0M	\$122.1M	\$382.3M	\$1,423.9M

Capital activity commitments total \$2,266.7 million of which \$1,408.7 million is to purchase metro cars.

The City has negotiated agreements to be supplied with diesel fuel at a set price until December 2016. As at December 31, 2013, the balance of the commitment was \$58.9 million.

b) Ownership of property used to extend the metro system to the City of Laval

On April 28, 2007, the Agence métropolitaine de transport transferred the property used in extending the metro system to Laval to the STM at no cost under Section 47 of the *Act respecting the Agence métropolitaine de transport* ("deed evidencing the transfer dated April 28, 2007"). On December 21, 2007, this transfer was cancelled on the condition that a new agreement be negotiated by the parties before February 28, 2008 ("reconveyance agreement dated December 21, 2007"). The expiry date of the reconveyance agreement dated December 21, 2007 was extended to June 30, 2014.

The conclusion of this agreement may result in an increase in assets of approximately \$1,036.7 million (excluding taxes) \$580.3 million as capital assets, \$456.4 million as receivables to be used to repay long-term debt, and an increase in liabilities of \$456.4 million as long-term debt, with the balance being allocated to the accumulated surplus.

December 31, 2013

18- COMMITMENTS AND CONTINGENCIES (continued)

c) F1 Grand Prix of Canada

As part of an agreement entered into to guarantee that Montreal is added to the F1 Grand Prix of Canada schedule for 2010 to 2014 inclusively, the City has pledged to make an annual contribution of \$15 million. In this respect, the annual contribution receivable by the City from its partners is \$14 million.

d) Claims and insurance

Claims pending against the City amount to \$540 million. In the opinion of the City's legal counsel, the settlement of these claims will not materially impact the City's financial position.

The municipal administration has not contracted any risk insurance. However, according to its Charter, the City must forecast, in its budget established for tax purposes, an amount of at least 1% of its expenditures to cover expenditures not forecasted in the budget, the settling of claims and payment of judgments.

e) Environment

The City, as an owner of contaminated land, may be required to perform certain acts to comply with the *Act to amend the Environment Quality Act* (2002, chapter 11). The City may have to characterize and, if necessary, rehabilitate a parcel of land after it has been used or when its use has been changed. The City is currently unable to determine the cost or method of financing of any measures.

19- COMMUNAUTÉ MÉTROPOLITAINE DE MONTRÉAL (the CMM)

The City is part of the CMM, a regulatory, planning, coordinating, and funding body. Under the *Act respecting the Communauté métropolitaine de Montréal* (R.S.Q C-37.01), the CMM exercises jurisdiction over such areas as economic development; arts and culture promotion; social housing; facilities, infrastructures, services and activities of metropolitan importance; public transit and the metropolitan arterial road network; waste management planning; air quality; and water purification. It also has jurisdiction under the *Act respecting land use planning and development* (chapter A-19.1) with respect to the metropolitan land use and development plan.

During the year, the City's financial contribution to the CMM totalled \$29,5 million (\$29.5 million in 2012). The CMM, for its part, paid the City \$43,9 million (\$37.8 million in 2012) with respect to the operating costs of certain metropolitan facilities assumed by the City and for the social housing program.

20- SUBSEQUENT EVENT

On January 19, 2014, Ville de Montréal sent a notice to Public Bike System Company (PBSC) in accordance with section 244 of the Bankruptcy and Insolvency Act (R.S.C., 1985, c. B-3). On January 20, 2014, in accordance with the provisions of the Bankruptcy and Insolvency Act, PBSC filed a notice of intention to submit a proposal to its creditors. The proposal was to be initially submitted on February 20, 2014. This date was extended to April 7, 2014 by order of the Superior Court. Currently, the city cannot predict the outcome of this proceeding or measure the financial impact on its consolidated financial statements.

21- PRIOR PERIOD

Certain comparative figures have been reclassified to conform to the current year's presentation. In particular, the city reclassified a \$40.3 million credit balance for grants related to an infrastructure financing program as a transfer in deferred revenues.

Fiscal Year Ended December 31, 2013

Operating surplus (deficit) for tax purposes for the year	23,851	32,437

- (1) The transfer revenues, as well as the equivalent operating expenditures presented in environmental hygiene, are reduced by \$18.0 million (\$23.1 million in 2012) equal to the municipal administration specific quota share with respect to the infrastructure work completed by the agglomeration level eligible for financial assistance under the gas tax and Quebec government contribution program (TECQ) and under the Building Canada Fund Quebec (BCFQ)
- (2) Eliminations refer to transactions carried out between organizations included in the financial reporting entity as well as to interjurisdictional transactions.
- (3) Repayment of long-term debt includes loan repayments and payments to the Sinking Fund related to loans taken out to finance capital expenditures and for which repayment is not covered by third parties. It also includes, for the municipal administration, additional payments to the sinking fund to reduce the long-term financing related to the acquisition of capital assets and to certain operating expenditures.

- (1) The transfer revenues, as well as the equivalent operating expenditures presented in environmental hygiene, are reduced by \$18.0 million (\$23.1 million in 2012) equal to the municipal administration specific quota share with respect to the infrastructure work completed by the agglomeration level eligible for financial assistance under the gas tax and Quebec government contribution program (TECQ) and under the Building Canada Fund Quebec (BCFQ)
- (2) The eliminations refer to interjurisdictional transactions.
- (3) Repayment of long-term debt represents loan repayments and payments to the Sinking Fund related to loans taken out to finance capital expenditures and for which repayment is not covered by third parties.
 It also includes, for the municipal administration, additional payments to the sinking fund to reduce the long-term financing related to the acquisition of capital assets and to certain operating expenditures.

⁽¹⁾ Repayment of long-term debt includes loan repayments and payments to the Sinking Fund related to loans taken out to finance capital expenditures and for which repayment is not covered by third parties.
It also includes, for the municipal administration, additional payments to the sinking fund to reduce the long-term financing related to the acquisition of capital assets and to certain operating expenditures.
For the purpose of this table, the repayment of long-term debt includes financing expenses.

⁽²⁾ Interjurisdictional transactions have been eliminated.

2013 Municipal Administration Financial Reporting

Breakdown of Mixed Expenditures

INDEPENDENT AUDITOR'S REPORT

To the Mayor, The Chairman and the Members of the Executive Committee, The Members of the Council of Ville de Montréal, The Members of the Montréal Agglomeration Council

I have audited the Table of Breakdown of Mixed Expenditures of Ville de Montréal between local and urban agglomeration responsibilities for the year ended December 31, 2013. This breakdown has been determined by management based on by-law RCG06-054 adopted by the Urban Agglomeration Council on December 13, 2006 and its subsequent changes (hereinafter "the regulatory requirements").

Management's Responsibility for the Breakdown of Mixed Expenditures

Management is responsible for the preparation of the Table of Breakdown of Mixed Expenditures in accordance with the regulatory requirements and for such internal control as management determines is necessary to enable the preparation of a table of breakdown of mixed expenditures that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on the Table of Breakdown of Mixed Expenditures based on my audit. I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Table of Breakdown of Mixed Expenditures is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the preparation of the Table of Breakdown of Mixed Expenditures. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Table of Breakdown of Mixed Expenditures, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the Table of Breakdown of Mixed Expenditures in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the table.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the Table of Breakdown of Mixed Expenditures of Ville de Montréal between local and urban agglomeration responsibilities for the year ended December 31, 2013 was prepared, in all material respects, in accordance with the regulatory requirements.

Auditor General of the Ville de Montréal,

Jacques Bergeron, CPA auditor, CA

Montréal, March 24, 2014

Fiscal Year Ended December 31, 2013

Municipal Administration – Breakdown of Mixed Expenditures – Supplementary Notes December 31, 2013

1- MIXED EXPENDITURES

An Act respecting the exercise of certain municipal powers in certain urban agglomerations (R.S.Q., chapter E-20.001), completed by the Montréal Agglomeration Order (Order-in-Council No. 1229-2005) and the orders that amended it thereafter, lists and defines the urban agglomeration responsibilities. Under this Act, expenditures incurred by the Ville de Montréal in carrying out by the municipal administration an act that falls within the exercise of an agglomeration power and, at the same time, another power, are considered mixed expenditures; these mixed expenditures are subject to a by-law of the Urban Agglomeration Council that sets out criteria for establishing which portion of the mixed expenditure is an expenditure related to the exercise of an agglomeration power.

The term "municipal administration" refers to Ville de Montréal excluding the organizations under its control.

2- BREAKDOWN OF MIXED EXPENDITURES

The mixed expenditures of the municipal administration are broken down between local and agglomeration powers in accordance with the criteria and calculation method defined in by-law RCG06-054, adopted by the Urban Agglomeration Council on December 13, 2006 and its subsequent changes.

Therefore, the portion of a mixed expenditure related to transportation, environmental hygiene, health and welfare, urban planning and development, as well as recreation and culture, which constitutes an expenditure incurred in exercising agglomeration powers, is determined using factual quantitative data or a quantitative measure of the human or financial resources allocated to the expenditure.

Also, the portion of a mixed expenditure that is a general administrative expenditure incurred by one or more support units in the exercise of agglomeration powers is determined using an administrative expenditure rate applied to the agglomeration expenditures, excluding debt service expenditures, contribution expenditures, contingency expenditures and mixed general administrative expenditures. The administrative expenditure rate is calculated annually on the basis of criteria set out in the above-mentioned by-laws. The rate applicable in 2013 was 7.01%.

The actual mixed expenditures are distributed based on the rates used to develop the City's 2013 Budget.

3- SIGNIFICANT ACCOUNTING POLICIES

The Breakdown of Mixed Expenditures Table for the municipal administration is prepared in accordance with Canadian public sector accounting standards using the same accounting policies as those described in Note 2 to the consolidated financial statements of Ville de Montréal for the year ended December 31, 2013.

By their very nature, the mixed expenditures for the municipal administration do not include any tax reconciliation items.
